

# MimioMobile

Get the most out of the iPads you already have with the MimioMobile™ application. A single MimioMobile license for a teacher's classroom computer lets every student with an iPad interact with the lesson displayed on the interactive whiteboard.

“MimioMobile allows students to actively participate from anywhere in the classroom. They can even answer assessment questions with their iPads.”

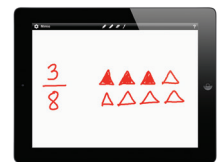

Paul Gigliotti  
History Teacher

The MimioMobile app lets multiple students simultaneously contribute to the learning environment. Teachers simply link the MimioMobile app to their MimioStudio™ classroom software, and several devices can be used together.

- Allows up to nine student iPads to display work simultaneously at the front of the classroom, facilitating collaboration.
- Multiple device types can be used together, including iPads, iPad minis, MimioPad™ wireless pen tablets, and MimioVote™ assessment.
- Using a patent-pending process, the MimioMobile app for iPad links with a simple point-and-click to the teacher's MimioStudio software. Just scan the QR code displayed on the whiteboard, and connect instantly.
- Purchase just one license for the teacher, and download the app to every student iPad in the classroom.
- Students can use iPads as assessment systems.

a better way to learn

# Key Features

---

## Minimum Software Requirements for Classroom Computer

- MimioStudio 10 software on Windows, Mac, or Linux OS.
- MimioMobile activation key, supplied upon purchase of the MimioMobile license, to enable functionality.
- For specific system requirements, please visit [mimio.com/support/downloads](http://mimio.com/support/downloads).

## Teacher and Student Modes

- MimioMobile iPad app supports features for both teachers and students.

## Teacher Control

- Allows teacher to control computer desktop.

## Teacher Classroom Management

- Allows teacher to pass control to an active MimioPad tablet or iPad running the MimioMobile application.
- Teacher can unilaterally retake control.

## Student Response/Vote Support

- Allows students to participate in a student response/vote session.
- Students may use any combination of MimioVote handsets and iPads running MimioMobile app.

## Student Collaborative Tools

- Allows students to participate in a collaborative activity.
- Each individual's collaboration space, shown on the interactive whiteboard, is replicated on that student's iPad, so he/she doesn't need to look at the board.
- MimioStudio Collaborate feature works seamlessly with any mix of new MimioPad tablets and iPads running MimioMobile app.

## Ease and Security of Connection

- Turns the usually complex and time-consuming process of connecting multiple iPads into an instantaneous point-and-click. Just scan the QR code displayed on the whiteboard, and connect instantly.
- Connection is secure and less support is required.

## Shortcut Keys

- Provides quick access to up to 16 commonly used MimioStudio Tools.
- Uses familiar MimioStudio icons, to shorten the learning curve.

## Interoperability

- iPads running the MimioMobile application can work simultaneously and seamlessly with the new MimioPad and MimioVote hardware.

## Languages

- For a complete list of the languages supported, visit us at [mimio.com/support/downloads](http://mimio.com/support/downloads).

## System Requirements

- iPad 2, iPad 3, iPad 4
- iPad mini
