

MimioView

High-resolution pictures and live video can really engage students and drive home a lesson. And your teachers can do it with plug-and-play simplicity. They take it out of the box, attach a single cord, and it's ready to go. Teachers don't have to learn additional programs because it automatically integrates with MimioStudio™ classroom software, and that means students can begin their learning immediately.

“I love that the teacher or students can mark up a LIVE picture at the whiteboard...”

Cameron Nichols
Elementary School
Teacher
Wilmington, NC

Take all the wonder of interactive lessons and activities, and launch them even farther by adding pictures or live video. This is the most user-friendly document camera available. No tangle of wires or endless cords to plug in. One USB plug does it all. The MimioView™ document camera also automatically integrates with MimioStudio software, and instantly captures high-resolution pictures and live video. Teachers can display, freeze, annotate, and save.

- Plug into a single USB computer port for both power and data.
- No external power sources or wall cords.
- Autofocus by pushing a single button.
- Capture both dimensional objects and flat documents.
- Two adjustable light sources.
- Save work by easily annotating images and creating files to use over and over.
- Enjoy exceptional detail with high-resolution 1600 x 1200 imaging.

Zoom or show an angle view, with the convenient gooseneck arm.
