

FOR THIRD CONSECUTIVE YEAR STREAMING MEDIA MAGAZINE SELECTS OSPREY VIDEO AS ONE OF THE TOP 100 COMPANIES THAT MATTER MOST IN ONLINE VIDEO

Carrollton, Texas, Oct. 12, 2016 – As one of the World’s most highly regarded companies in online video, Osprey Video today announced its selection as one Streaming Media’s top 100 companies that matter most in online video for 2016. This marks the 3rd consecutive year that company has been acknowledged with this honor. Eric Schumacher-Rasmussen of Streaming Media Magazine said, “The Streaming Media 100 is our annual attempt to shine the spotlight on the companies that enable the creation and delivery of all of that amazing content. These are the companies that our editors and contributors have determined to be the cream of the crop—the most important, most innovative, and most influential companies providing streaming and OTT technologies, products, and services.” According to Roger Bieri, CEO of Osprey Video, “Our focus over the last year has been to keep our finger on the pulse of our current customers to ensure we’re supporting current product rollouts, design wins and ultimately the needs of our customer base. But, even more so than ever, we’ve ramped up our product development to ensure that the next 12 months will position Osprey Video as a leader in not only capture cards, but Hardware Encoders and other important tools in the streaming workflow.” Known for setting the standard in producing the finest video capture experience for its customers, the company launched a host of new products in 2016, highlighted by its award winning Talon G1 Hardware Encoder as well 12G and 4K Switchers and Distribution Amplifiers. Bieri continued “In 2016 we set the stage for our continued growth and product development and we’re excited to keep the momentum going into 2017”

About Osprey Video

Osprey Video’s premium video-capture technology drives mission-critical video delivery in industries ranging from broadcast, Internet TV, and surveillance, to enterprise, government, and aerospace. As video has evolved and live streaming has become the key to global reach, Osprey Video has evolved with it. The technology in its flagship capture cards and drivers is the foundation for its live-streaming and encoding products, which allow customers to satisfy increasingly higher expectations for online video. The company is continually expanding its product portfolio to meet customer demand for high-quality, reliable tools in ever-evolving video applications — from video over IP to closed captioning, mobile streaming to 4K capture and distribution ... and beyond.
